

List of currently available ESXi packages

From V-Front VIBSDepot Wiki

Contents

- 1 NIC drivers
- 2 Applications
- 3 Firewall rules
- 4 Driver map files
- 5 Esxcli plugins
- 6 Other

NIC drivers

- net-e1000e: *Obsolete* - Driver for Intel I217/I218/82579LM/82574L
- net-tulip: DECchip 21140 Ethernet driver (This driver allows running ESXi as a VM under Microsoft Hyper-V)
- net55-r8168: Updated driver for Realtek 8168/8111/8411/8118 based NICs
- net51-r8169: Adds the blacklisted ESXi 5.1 built-in net-r8169 driver back to ESXi 6.0
- net51-sky2: Adds the blacklisted ESXi 5.1 built-in net-sky2 driver back to ESXi 6.0
- net51-drivers: *Deprecated* - Adds all blacklisted ESXi 5.1 NIC drivers back to ESXi 6.0
- net-atl1: Attansic/Atheros L1 Gigabit Ethernet driver
- net-atl1e: Driver for Atheros(R) AR8121/AR8113/AR8114/AR8131/AR8132/AR8152 PCI-E Ethernet NICs
- net-igb: Intel(R) Gigabit Ethernet Network Driver (modified to ignore invalid NVM checksums)
- net-r8101: Realtek RTL8101E/RTL8102E driver
- net-r8139too: Realtek RTL-8100/8101L/8139 PCI Fast Ethernet Adapter Driver
- net-skge: Driver for Marvell Yukon chipset and SysKonnect Gigabit Ethernet Adapters

Applications

- ProFTPD: An FTP daemon for VMware ESXi
- esx-tools-for-esxi: VMware Tools for Nested ESXi
- esx-ui: ESXi Embedded Host Client
- lb-opensm: InfiniBand Subnet Manager by Hypervisor.fr
- iperf: iperf v2 i386 for ESXi 5.x (prepared by Hypervisor.fr)
- ghettoVCB: ghettoVCB Backup and Restore script

Firewall rules

- fw-ntpd: A firewall rule to enable incoming NTP traffic

Driver map files

- sata-xahci: Adds the PCI IDs of several unsupported SATA AHCI controllers and maps them to the built-in AHCI driver

- net-sky2-1: Adds the PCI IDs of additional Marvell NICs to an existing net-sky2 driver
- net-forcedeth-1: Adds the PCI IDs of various Nvidia nForce NICs to an existing net-forcedeth driver

Esxcli plugins

- esxcli-shell: Provides the new *shell* namespace for esxcli that enables you to run **any** shell command remotely

Other

- cpu-microcode: Adds up-to-date CPU microcode patches to ESXi 6.0
- cpu5-microcode: Adds up-to-date CPU microcode patches to ESXi 5.x
- vmware-esx-dvfilter-maclearn: A MAC learning network filter for ESXi
- kb2145400: Implements likewise changes described in VMware KB2145400
